

## **BRAIN DRUGS – CHALLENGES AND FIRST HAND STORIES FROM IDEA TO THE CLINIC**

Drug delivery to the diseased brain is a major challenge!  
Join this seminar, to learn why it is so – and to hear first-hand  
stories from researchers moving brain drugs (closer to) the clinic

*Thursday April 28th 2022  
Benzon Auditorium, Department of Pharmacy  
Universitetsparken 2, University of Copenhagen*

### **15.00-15.05 Welcome by Danish Pharmaceutical Society**

*Mie Kristensen & Stine Harloff-Helleberg  
Section of Biopharmacy, Danish Pharmaceutical Society*

### **15.05-15.50 Why is it so difficult to get drugs (delivered) to the diseased brain?**

*Birger Brodin (Professor, HoD, University of Copenhagen)*

### **15.50-16.05 Coffee and refreshments**

### **16.05-16.50 From bench to clinic with the antidepressant drug Brintellix**

*Benny Bang-Andersen (Senior Director, Lundbeck)*

### **16.50-17.35 Treatment of acute ischemic stroke with AVLX-144 – from university lab to clinical development**

*Kristian Strømgaard (Co-founder & CEO, Avilex Pharma)*

### **17.35-17.45 Discussion and wrap up**

*Mie Kristensen & Stine Harloff-Helleberg,  
Section of Biopharmacy, Danish Pharmaceutical Society*
